

ADVANCED PEST SOLUTIONS, INC.

PREPARATION WORKSHEET FOR GERMAN ROACH TREATMENT

_____ Do not use any control measures on your own. The use of aerosols, bug bombs, baits, etc., may cause our treatment to fail.

_____ Please remove all eating utensils such as silverware, dishes, pots and pans, etc., from your upper and lower cabinets and place them in the middle of floor in an adjacent room. Cover all items with a sheet. Please do not leave these items in kitchen because it will make it more difficult to treat your cabinets.

_____ Leave all kitchen appliances such as toasters, blenders, microwaves, coffeemakers, etc., on your counter. They will need to be inspected and treated if necessary.

_____ Put away toothbrushes, water glasses, and other personal use items in bathrooms.

_____ Remove all items from bathroom, cabinets and under sink.

_____ Thoroughly clean all counter surfaces with hot sudsy water **after your service**. We prefer that you use liquid dish washing detergent rather than products containing ammonia or bleach, as these products are repellants and will interfere with our treatment.

_____ Remove all items out of the dresser drawers and place it in a bag, box or totes and put on bed.

_____ Please have children and pet toys put away. All pet food and water containers should be removed and stored in plastic bags.

_____ During warm weather months, **please leave your air conditioning turned on**. If you do not own an air conditioner, open all windows and leave fans on for better ventilation.

_____ Because of the many variables out of our control with this type of service, i.e., preparation, cleanliness, insects being reintroduced into structure, etc. there will not be a warranty offered with this program.

_____ Please be patient, it may take up to three weeks to several months to eliminate a cockroach infestation. We strongly suggest that a follow-up service be scheduled 30-days from your initial treatment.

*** NOTE: If our technicians arrive at your residence and find that the prep work is **NOT DONE PROPERLY**, and your service needs to be rescheduled, there will be a **\$50.00 TRIP CHARGE ADDED TO YOUR FUTURE SERVICE**.
