

Fight allergies in the frontlines this Spring and eliminate up to 99% of surface and airborne contaminants inside your home.

We work hard to make you healthier through better indoor air quality (IAQ)

air  scrubber PLUS®

Allergy Season is finally here, but the Air Scrubber Plus® is ready to purify the air you breathe indoors, blocking allergens that cause runny noses, itchy eyes and other discomforts.

Air Scrubber Plus® actively treats the air in your indoor environment to significantly reduce allergens and air quality contaminants¹ such as:

- Pollen
- Bacteria
- VOCs
- Dust
- Viruses
- MRSA
- Grass
- Germs
- E.Coli
- Pet Dander
- Microbes
- Strep & Staph
- Smoke
- Particulate
- Air Pollutants
- Mold
- Avian Flu
- Cooking Odors

Air Scrubber Plus® cleans, freshens and purifies the air and surfaces with specialized light waves, along with a unique catalytic process that creates environmental scrubbing oxygen and hydrogen molecules.

Air Scrubber Plus® is your first line of defense to help your family breathe healthier air.

¹ Visit www.airscrubberplus.com for validation on all claims.

The ActivePure™ technology inside the Air Scrubber Plus® was developed for the U.S. Space Program by NASA. In 2017 it was inducted into the Space Technology Hall of Fame by the Space Foundation.
