VINYL OUTDOOR PLAYSETS

Making Childhood *Dreams come True*

For more than a decade, Star Quality Swingsets has been crafting vinyl playsets and bringing countless hours of enjoyment to children all across the nation. Our family-owned and operated business based in Lancaster County PA is committed to creating safe and durable swingsets for your children or grandchildren.

Studies show that having your child play outside improves their cognitive and social/emotional development. It also increases attention span, improves sensory skills, and builds better immunity, as well as happier children! Here at Star Quality Swings, we strive to build fine quality, affordable play sets to help your child reap all those benefits.

Our playsets are carefully planned to fill all available space with activities that will expand your child's creativity and let the playset become anything they can imagine!

We use only the highest quality materials to ensure safe, durable playsets, that will provide years of enjoyment to you and your family.

We Can Deliver Your Swingset

Your swingset will be delivered partially assembled. All gate openings need to be as wide as the swing tower of your swingset. There is an additional \$50 charge if we need to remove fences to access the area. There is also a \$150 charge if we need to return because of inaccessibility.

What is *Star Swings Quality?*

There are a few things that come to mind when it comes to quality. Here is what we mean when we say Star Swings Quality.

- **Safety Obsessed**

When you're looking for a play set for your child the last thing you want to worry about is safety. That's why at Star Swing Sets we focus on safety. No dangerous exposed sharp edges. No need for regular treatment with questionable chemical solutions. Smooth, slip resistant vinyl is the only thing your child needs to come in contact with. Some would say we're obsessed with safety, but this is for your child. Enough said!

- **Stronger than the Rest**

When you think of a typical play set you may not think along the lines of quality. However, a Star Swing Set means a set that will last far longer than your typical, cheaply built play set. From all vinyl covered construction (no splinters, no exposed wood, child safe) to hardware that's powder coated or stainless steel. Strong? Certainly!

- **Longer Lasting than the Best**

When it comes to durability, we believe in putting our money where our mouth is. That's why all of our swing sets have a 5 year no quibble warranty. We believe in our product. That's why we guarantee you will too! See our warranty page for more details.

With the safety of your children being our number one goal, we offer **vinyl construction** which ensures that there are no splinters, or wood-treatment chemicals exposed.

The **super heavy-duty slides** are made of thick molded vinyl. Each part of your playset has only the highest of quality materials.

By using **high-quality stainless steel fasteners**, we are able to keep rust away and your play set looking like new for years to come.

The tough, super **zinc-coated swing chain** will stay shiny for years while providing additional safety for your children.

Since strength and stability are so important for safety, we use **extra corner bracing** to ensure stability. All metal brackets are powder-coated and rust resistant.

All swingsets are built with **pressure-treated wood, and encased in a tough vinyl covering**. This will provide safety and beauty.

CLEANING & CARE

Over years of usage your swing set may become dirty looking. To revitalize and clean its appearance, with a soft bristled brush, warm water and glass cleaner, gently clean your swing set.

Frequently Asked Questions

Q. Will the Vinyl Turn Yellowish with Time

A. No. Here at Star Quality Swings we use only high quality vinyl that includes a highly effective UV resistant component specifically engineered to keep it from yellowing.

Q. How Hard is it to Maintain Your Playsets

A. Star Quality Swings loves this question! We love the answer even more! Maintenance is almost unneeded! From time to time, as any outdoor toys do, it needs washed off. However, you don't need harsh cleaners! A hose, glass cleaner, and a soft bristle brush will do the trick!

Q. What Prep is Required Before Installation

A. We recommend that the site be leveled before delivery, not only for appearance, but also for safety. Prepare an area with at least an extra three foot space on each side of the playset. Not having a properly leveled area will void the warranty.

Q. How Strong is The Vinyl

A. The vinyl we use has five times the tensile strength of wood, and four times the flexibility of wood!

Q. Why Do You Cover the Wood

A. By covering the wooden structural elements of the play set, it keeps the stability without the maintenance. No one wants to re-stain or re-paint a play set every year! Covering the wood also keeps all splinters non-existent. Keeping the wood covered also preserves the wood, which makes our play sets last for many, many fun-filled years to come!

STAR SWINGS WARRANTY

At Star Swings we warrant (to the original purchaser) our workmanship to be fault free for up to 5 years, as well as all canopies, sliding boards, metal components, swings & accessories. We grant you a lifetime warranty on the underlying pressure treated lumber as well as a 20-year warranty on all PVC components with protection against their discolouration. Effects of normal wear and tear, improper maintenance or abuse is not covered by this warranty. All damage resulting from acts of nature are not covered by this warranty.

Star Swings reserves the right to request proof in the form of photos or physical evidence of defective product. Customer agrees to pay for all shipping or other costs involved in returning said defective product for inspection. Star Swings will repair or replace the defective product at its own discretion. If this is deemed impractical, we will reimburse the original purchaser for the value of the defective piece.

NOTE: All of the above expressed applies ONLY to sets that are installed correctly and used in a normal residential environment. We ALWAYS advise adult supervision while your child enjoys their play set. Please make sure your child is instructed to keep a safe distance from all moving equipment and parts.
