I couldn't have been more pleased with the work that Harrison's did for me! They removed a very large Sweet Gum tree from my front yard and removed a bunch of old, overgrown wild honeysuckle from along the back of my lot. They were professional, pleasant, and very conscientious about all aspects of their work. I gave their name to my mom and she used them and was also very pleased with their services and price. She then gave their name to the man who lives behind her who and some VERY large trees that needed to come down and he was pleased as well! I know this sounds "over the top", but after mediocre experiences with other tree removal companies, I won't use anyone else ever again as long as Harrison's is around!

Description Of Work:

Took down a three-story hard-wood maple, close to the house and branches touching a power line; cleaned up debris, grinding all brush, raking leaves, etc. and leaving firewood stacked neatly. Also removed honeysuckle "tree" and small burning bush.

Excellent job! Jeff, who did the estimate, was the bucket man and crew leader of the five man team that arrived promptly on the scheduled day, starting at eleven for the afternoon appointment. I was impressed with the care and safety used in doing the job, in regard to both my property and the workers. Jeff showed concern for my landscape, making it clear there would necessarily be some damage, but taking the time to find agreement with me regarding the path the men would take to drag brush to the grinder. He seemed to communicate clearly with an experienced crew that worked well together. Even with a last minute bush removal, the whole job was done, yard cleaned, and the men on their way in about three hours or so.

Description Of Work:

Removed very large Walnut close to house including grinding of stump. Also removed 8 cedar trees, deadwood trimmed 2 maples and ground an existing stump from a prior tree removal

The work went very well. They had a very good crew and the right equipment for the job. They cleaned up all the debris and even put down grass seed in areas that got beaten up a bit because the ground was softened midway by rain. A very professional job by a firm that played by the rules. Insurance and workers compensation certificates provided. They earned my future business!

They did a superb job. I was literally speechless when I came home and saw their work. I have never been impressed with a company as much as I am with Harrison's Pro Tree Service! They were the lowest bid I received, but that's not why I hired them. I hired them because Jeff Harrison has top notch customer service, best I've ever seen in a company. Jeff said they would do certain things for me including cleaning my front gutters and I asked late in the process to have firewood sized wood pieces left at the bases of the trees - both of these were not stated in the proposal, but were completed as they said they would be. I had an exterminator come by the afternoon after my trees were trimmed and he asked me the name of the company twice and said he was going to call them for his personal needs. Simply the best. Thank you Jeff Harrison and team!

Removal of large ash tree by the corner of my home

Member Comments:

Mr. Harrison was very prompt in providing a written estimate. He and his crew came quickly to remove tree. There was no damage to house or shrubs. Cleanup was immaculate. I will definitely use their services again. I fully recommend Harrison tree service.
