

Information from Wareham's Security on COVID-19

APRIL 23, 2020

Without question, this is a difficult time for everyone. Our hearts go out to those who have been affected by this pandemic. Wareham's Security's mission is to provide security to the places and business that people call home, which is even more important during these unprecedented times. Because of our role connecting our business and residential customers to police, fire and medical emergency services, Wareham's Security has been identified as an essential business. We are still open and doing everything we can to support you. Being designated as an essential business is something that we are taking very seriously, so we are implementing extra measures to safeguard our customers and our team members.

Protecting our customers and staff

Our customers trust us to be there for them when they need us most. Since the nature of our business is such that sometimes we need to interact directly with our customers we are taking extra steps to safeguard our customers.

- Our staff is available for questions to resolve issues without in-home appointments, when possible.
- We are equipping our employees, who meet with customers, with additional cleaning, sanitation, and protective tools to help protect them and our customers.
- Our technicians are implementing social distancing practices, making sure a customer's household is healthy before arriving, wearing face masks and gloves when in a building with the public, and utilizing personal hygiene safeguards.
- We are implementing more rigorous cleaning regimen for our office as well as our company vehicles.

We do not know how long this will last, but we do know we will get through this. Wareham's Security has been serving our community and surrounding areas for almost 50 years. We will be here when you need us most. As always, please feel free to reach out to us with any questions or concerns.
