

7000 series

Engineered and developed as a cost-effective irrigation solution, the Valley 7000 series is second only to the industry-leading Valley 8000 series for reliability, durability, and overall performance.

VS-7000 Gearbox

The VS-7000 gearbox is a high quality, durable gearbox offered at a lower price point. Many of the features that make Valley gearboxes the industry's leader are included, such as ductile worm for longer gear life and extended output shaft for improved seal life. The VS-7000 gearbox has proven to be the second best gearbox in the industry.

Features:

- Economical irrigation option for smaller fields
- Another option for irrigating corners or irregularly shaped fields
- Easy to operate, control, and monitor
- Optional upgrades to enhance your control and monitoring capabilities
