## HISTORY

Timber Products was established in February of 1991 as a small, 1 truck company hauling landscape bark to Chicago, IL. In November of 1991 we began hauling sawdust from southern states to a new customer in Manitowoc, WI, which we proudly still do today. Through the years our customer base has grown significantly and so has our fleet. We now have over 150 customers with 30 trucks and over 100 trailers. We offer delivery of all types of freight with dry van, open top, flat bed, and step deck options and delivery to all of the lower 48 states. Timber Products is owned by Adam and Sarah Buchcusi who were born and raised in the local area. We pride ourselves on being a close knit, family owned and operated business with an experienced core of drivers, mechanics, and office staff. We look forward to servicing your freight hauling needs for generations to come.
