## SECURITY COMMAND SYSTEM INSTRUCTIONS

### Arming a Home/Away System

1. Be sure that all protected doors/windows are closed; the exit door must also be closed. Everyone also must stand still to avoid tripping any motion sensors. The display should read **SYSTEM READY**.

2. a. To arm system when not leaving, press 3 (**HOME**) and hold for 2 seconds. If keypad displays **ENTER CODE:** Enter your user code or present prox key to logo in lower left hand corner.

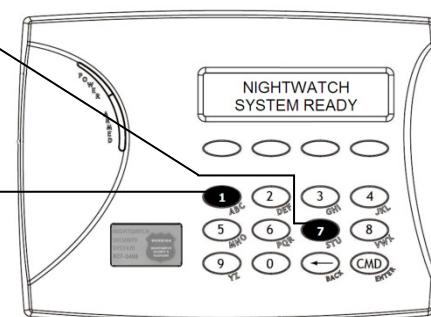

The red armed light will come on, and the system will then begin counting down.

HOME = \_\_\_\_\_

- b. If your system has the Sleep feature, to arm in this mode, press 7 (**SLEEP**) and hold for 2 seconds. If keypad displays **ENTER CODE:** Enter your user code or present prox key to logo in lower left hand corner.

The red armed light will come on, and the system will then begin counting down.

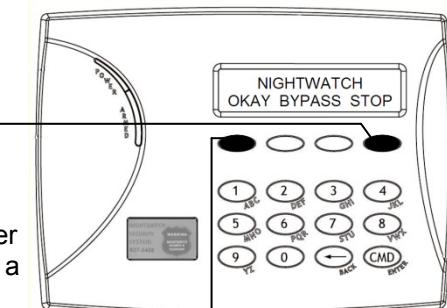

SLEEP = \_\_\_\_\_

- c. To arm system to leave, press 1 (**AWAY**) and hold for 2 seconds. If keypad displays **ENTER CODE:** Enter your user code or present prox key to logo in lower left hand corner.

The red armed light will come on, the countdown will begin, and if programmed to, the system will beep repeatedly until the countdown ends to remind you to exit the premises.

*If you do not leave during the countdown, the system will automatically arm to the home mode.*

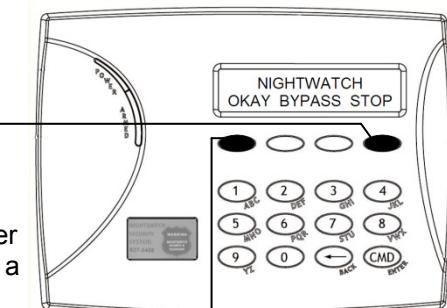

AWAY = All Sensors On \_\_\_\_\_

### Zone Faults

1. If after making your selection the display says that there is a zone fault, this usually means that a door is open, or a motion sensor has picked you up while arming the system.

The display will then show **OKAY BYPASS STOP;** Always select STOP. \_\_\_\_\_

2. After the system displays **ARMING STOPPED** and goes back to **SYSTEM READY**, begin again with Arming Step 2; remember to stand very still while turning the system on so you do not trip a motion sensor.

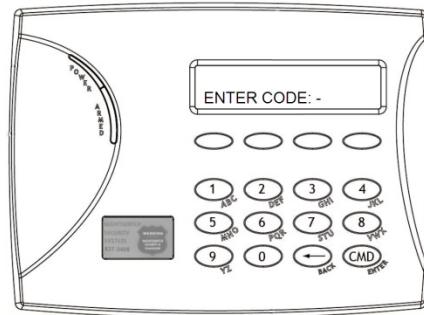

3. If it indicates that there is a fault for a second time, please visually check the sensor indicated for problems.

4. As a last resort, you may choose **OKAY** to force the system to arm even though there is a problem, leaving the indicated area unprotected. \_\_\_\_\_

(SEE BACK FOR DISARMING INSTRUCTIONS)

### **Disarming a Home/Away System**

1. During entry delay, the keypad displays **ENTER CODE:**. Enter your user code or present prox key to logo in lower left hand corner.
2. The keypad then displays any alarms or communication problems that occurred during the armed period.
3. The keypad next displays **ALL SYSTEM OFF** to confirm the system is disarmed. The red "Armed" light will also turn off.

*(In the event that the display says **INVALID CODE**, wait 5 seconds until the **INVALID CODE** message disappears, and enter your code again.)*

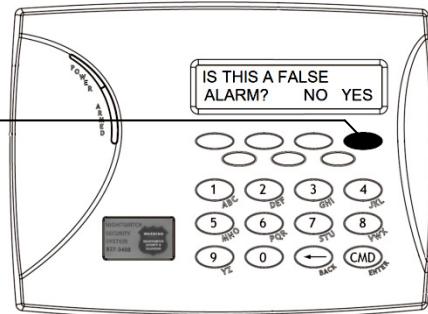

### **Disarming During an Alarm**

Use this procedure when your siren is sounding to cancel the alarm. You must cancel the system, and then cancel the alarm with our alarm monitoring center.

1. At any keypad, enter your code or present prox key to silence the alarm sounder.  
The display should read '**IS THIS A FALSE ALARM?**'  
select YES.  
The display should then read **ALARM CANCELLED**.

*(In the event that you do not want to cancel the alarm, select the **NO** option to let Nightwatch Central know that this is not a false alarm.)*

*If the display indicates **INVALID CODE**, wait 5 seconds until the **INVALID CODE** message disappears and enter your code again.*

2. Go to a phone and dial 827-2000 (1-800-827-3408) to call NIGHTWATCH CENTRAL, our alarm monitoring center. Give the operator the password, your name, and any other information requested so that we may cancel the alarm.

*If the phone rings before you have called Nightwatch Central, please answer. Our operator will say, "This is Nightwatch Central." At that point, you should respond with the password, your name, and let the operator know that everything is OK.*

**IMPORTANT:** If you receive another call before speaking with Nightwatch Central, please excuse yourself and call Nightwatch Central immediately (see step #2). It is important that you cancel the alarm before authorities are notified.

NOTE: These are basic instructions, and do not cover all possible situations. If questions arise, refer to your users guide, or call Nightwatch Security & Telephone for assistance at 827-3408 (1-800-462-1996.)
