

NIGHTWATCH SECURITY & TELEPHONE, L.L.C.

2211 West Main ♦ Sedalia, MO 65301

Phone: 660-827-3408 / 800-462-1996 ♦ Fax: 660-827-3498

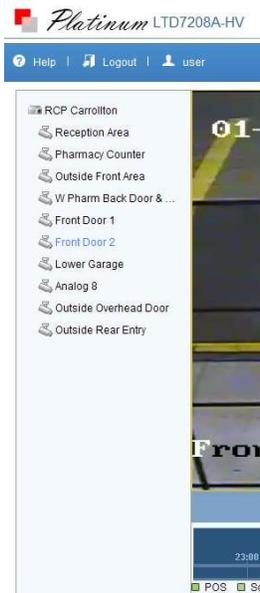

LTS Platinum NVR Video Playback / Saving Instructions via Internet Explorer

Video Playback:

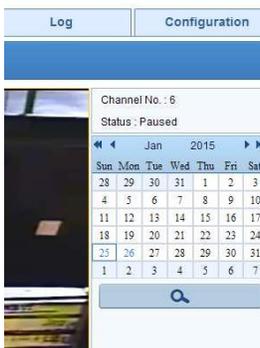

1. Go to the website associated with your NVR in Internet Explorer
2. Login
3. Click the "Playback" tab at the top of the screen

4. Click in the left column on the camera you wish to search

5. To search, go to the right side and click the day on the calendar you wish to search, then click the magnifying glass under the calendar

LTS Platinum NVR Video Playback / Saving Instructions via Internet Explorer

6. Click the play button under the black box – it will begin playing at 12AM on the chosen day

7. Click and drag on the timeline to go forward or backward – where there is red that is where the camera is recording. Use controls (play, stop, fast forward, rewind) located above the timeline.

LTS Platinum NVR Video Playback / Saving Instructions via Internet Explorer

Video Saving:

1. Go to the Configuration screen and click “Local Configuration” on the left – click Browse next to “Save Downloaded files to” and put where you want them saved to (We suggest somewhere in your user documents unless you have a thumb drive plugged in you want to save to)
2. Click Save at the bottom

3. After you search (following instructions on pages 1-2), click the Download button (to the right of the play button)

4. A popup window will appear which you can click which clips you want to download (it will have a separate clip for each time motion is found) – see next page for photo
5. Add a check to the box next to each one you want to download and click Download. It will show the download progress in the popup window. Once completed, it is downloaded to your computer and you can transfer it to a USB drive or burn it to a disc.

LTS Platinum NVR Video Playback / Saving Instructions via Internet Explorer

- To find the file that was downloaded, open the folder where you saved it to in the first step and look for a file named with the date you downloaded it (for example 2015-01-26 if you downloaded it on January 26, 2015)
- Go to <http://www.ltsecurityinc.com/downloads> and download the Platinum Codec for Media Player and run it so you can play the files back in Windows Media Player. We suggest you also save this codec into the folder where you saved the video so if you copy it to a thumbdrive the other person will have it as well.
