

CROFTGATE USA

High Performance Eco-Responsible Car Care Products

TIRE SHINE PLUS

CroftgateUSA's **Tire Shine Plus** has a blend of emollients, cleaning and gloss agents to leave your wheels, tires and other areas clean with a long lasting, satin smooth finish. Non greasy formula! **Tire Shine Plus** is also used on plastics to rejuvenate, bringing back their color density. Use it on your dash area to clean and leave a nice finish. All CroftgateUSA products are formulated to provide quality results with the lowest environmental impact.

PRODUCT FEATURES

- One product to clean/shine wheels, tires and more.
- No listed hazardous materials to touch or breathe.
- Low environmental impact, does not have petroleum solvents.
- If accidentally sprayed onto vehicles paint, wipes right off.
- Will not sling nor attract dirt like the older technology products.

Recommendation For Use:

Needed: 2 clean microfiber towels each folded two times.

Wheels & Tires

1. Adjust trigger spray nozzle and apply an even coating onto tire.
2. Spray onto wdqeeceqerims (wheel) ensuring all areas are coated.
3. Take your microfiber towel and wipe rims (wheel) clean.
4. Fold dirty microfiber towel once or twice and wipe around tire, leaving a deep long lasting shine. Continue 1-4 until all rims and tires are clean and shined.

Dash Area

1. Spay one or two mists onto a clean micro fiber towel (folded two times).
2. Rub the towel material against itself so the Tire Shine Plus works into the towel.
3. Now wipe your dash area until clean and a dull matte shine appears.
4. Repeat Steps 1-3 until all areas are done.

Plastics

1. Mist onto micro fiber towel and onto plastic area to be cleaned and treated.
2. Wipe in ensuring all areas are covered.

No Petroleum Solvents - No Listed Hazardous Materials - No VOCs'
