To Our Valued Customers :

Parker Brothers is a 50+ year old, family owned and operated company whose number one goal has always been to provide our customers with the very best service and products at the lowest price possible.

We appreciate your business and are constantly looking for ways to save you money.

If you have any questions or comments, please call Parker Brothers, Monday thru Friday 7:30 a.m. to 4:30 p.m at 770-474-1286.

Our hope is that you will find the things you need to help your business run more efficiently and productively with the aid of this catalog.

WE APPRECIATE YOUR BUSINESS

FormulaShell Motor Oils

SAE5W-20, 5W-30, 10W-30, 10W-40, 20W-50, 30WT and 40WT Motor Oils

FormulaShell™ 5W-30, 10W-30 and 10W-40 Motor Oils are energy conserving oils. Offered in six viscosity grades, the 5W-30 grade is generally preferred in late model 4- and small 6-cylinder gasoline engines. The SAE 5W-30 is also an excellent choice for all engines at very low ambient temperatures where cold starting and rapid oil flow are major considerations. The 10W-30 grade is preferred for larger 6-cylinder and V-8 engines, and it can be used in all engines where an API SL oil is recommended. The 10W-40 grade is still a popular multigrade oil. All oils meet API service classification SM.

Shell ROTELLA® T Multigrade Oils

Shell ROTELLA T Multigrade SAE 15W-40 is Shell's premium quality, heavy-duty multigrade oil for all-season use in diesel powered or a mix of gasoline and diesel powered vehicles and equipment. Over the past 25 years, this product has become the best selling heavy-duty multigrade oil in the U.S., with a rich heritage as the technology leader in terms of engine testing and proven field performance. All oils meet API service classification SL,CF,CF-4,CG-4,CH-4, CJ-4

Shell ROTELLA® T Single Grade Oils

Shell ROTELLA T Single Grade Oils have been performance proven in diesel and mixed diesel/gasoline on-highway truck fleets for over 3 billion miles. These engine oils satisfy a wide range of heavy-duty diesel manufacturers' specifications of Detroit Diesel to the high detergency requirements of Caterpillar.

Mystik® Premium Fleet Motor Oils

Mystik® Premium Fleet Motor Oils are excellent high performance motor oils for naturally aspirated, supercharged, and turbocharged diesel and four-stroke gasoline engines. They are blended from selected premium base stocks and a balanced additive system to provide the superior soot-handling and wear protection demanded by modern heavy-duty diesel engines. Premium Fleet motor oils meet or exceed the performance requirements of the major heavy-duty diesel and gasoline engine manufacturers, including those found in off-highway, farm, and construction equipment. Premium Fleet Motor Oils are also the first choice for engines running on "sour" natural gas or other similar fuels that contain high levels of hydrogen disulfide (HeS). All oils meet API service classification SL,CF,CF-2,CF-4,CG-4,CH-4

HEAVY DUTY MOTOR OIL

Mystik® JT-8® Super Heavy Duty Motor Oils

Mystik® JT-8® Super Heavy Duty Motor Oils are value-added lubricants with a carefully balanced premium additive system that will give outstanding deposit control, minimize sludge and varnish, and control wear under the most severe service conditions. Formulated to provide the superior soot-handling and wear protection demanded by modern heavy duty diesel engines, they will help maintain long-term low emission performance. Mystik® JT-8® Super Heavy Duty Motor Oils are recommended for commercial over-the-road fleets, construction equipment, buses, automobiles, and other similar gasoline- or diesel-powered applications where a premium quality engine oil is required. Also recommended for LPG and CNG conversion engines in all types of service, and natural gas engines operating on sour gas or under other severe service conditions. All oils meet API service classification SL,CF,CF-2,CF-4,CG-4,CH-4

INDUSTRIAL MOTOR OIL

Mystik Non-Detergent Motor Oils

Non-Detergent Motor Oils are manufactured from high quality virgin oil with added foam inhibitors. They are for use in noncritical applications where the equipment manufacturer recommends the use of non-detergent oils. Non-detergent oils may be used in the following applications: GL-I gear oil; SA motor oil; general machine oil; and low pressure, noncritical hydraulic applications.

Shell MYSELLA® Oils

Shell MYSELLA Oils are ash free, dispersant crankcase oils for use in engines fueled by natural gas.. Shell MYSELLA Oils Single Grade Oils are recommended for all 2-and 4-stroke cycle gas fueled engines for which the manufacturer does not specify an ash type oil. Typical installations are in gas transmission, total energy plants, electric power generators, chemical plants and various engine applications.

Mystik® JT-7® Multi-Purpose Gear Lubricants

For Limited Slip Axle Lubrication Mystik® JT-7® Multi-Purpose Gear Lubricants are multi-purpose, thermally stable, sulfur-phosphorus extreme pressure (EP) gear lubricants that meet or exceed the performance requirements of API GL-2 through GL-6 and new designation MT-1 for non-synchronized manual transmissions, MIL-L-2105D, and Mack GO-H A specially balanced additive provides thermally stable gear lubricants with exceptional durability under high temperature conditions. Not all thermally stable gear lubricants are thermally durable, many lose their EP performance when subjected to thermal stress. Mystik® JT-7® Multi-Purpose Gear Lubricants can take the heat and continue to provide superior EP protection, minimum gear wear, excellent deposit control and improved rust and corrosion protection under extreme service conditions. Recommended for all automotive and heavy duty axles.

MYS:ANTI-LEAK-P	15W40 INDUSTRIAL OIL..5 GAL	\$ 55.10

Mystik® AW/AL Hydraulic Oils

These are premium quality antiwear, antileak, and antifoam hydraulic oils formulated for use in modern high and low pressure industrial and mobile hydraulic systems. They meet the toughest requirements of most manufacturers and are dyed green for ease of identification from other petroleum products. They have 100% paraffinic high VI base oils with low pour points, for wide temperature usage and additionally are treated with antioxidant stabilizers for long life and antirust protective additive. A fully synthetic seal swell agent prevents and stops minor leaks and provides longer seal life.

LUBRICANTS

INDUSTRIAL GEAR OIL

Mystik® Industrial EP Gear Lubricants

Mystik® Power Lubricants™ Industrial EP Gear Lubricants are GL-2 through GL-4 performance level products exhibiting a 60 pound Timken Load. They are multi-service industrial EP gear lubricants for a wide variety of applications and are manufactured from high quality base stocks and superior additive technology. They are recommended for industrial hypoid gears in non-severe service, manual transmissions and spiral bevel axles requiring mild EP compounding, enclosed gear units, plain and antifriction bearings, gear reducers, and many other applications where an industrial EP gear lubricant is specified.

Shell OMALA® HD Oils

Shell OMALA HD Oils use the highest quality synthetic (PAO) base stocks available. These base fluids, coupled with carefully selected additives, offer performance far superior to gear oils that are blended from conventional base stocks. Shell OMALA HD Oils are designed for use in industrial gear reducer systems that encounter high or wide ranging temperatures and heavy loading. These oils are also well suited for "sealed for life" systems. OMALA HD Oils help extend drain intervals, improve system cleanliness and reduce maintenance costs. They are compatible with the elastomers, gaskets, seals and paints that are normally used in systems designed for conventional mineral oils. Systems require very little clean up before being switched to OMALA HD Oils.

Shell OMALA S4 (Formally TIVELA) Fluids

Shell Tivela Fluid are high performance synthetic lubricants that were developed in cooperation with major gear manufacturers. They are recommended for primarily for industrial worm gear lubrication, but may be considered a general purpose gear lubricant for critical applications. The Shell Tivela Fluids are based on polyalkylene glycol (PAG) synthetic based fluids that provide excellent thermal and oxidative stability, load carrying capability and sludge free performance over a wide range of temperatures. In addition, the Shell Tivela Fluids have low foaming tendencies and good rust protection -- even in salt water environments.

FOOD GRADE LUBRICANTS

Mystik® FG/FM Food Machinery Oils

Mystik® FG/FM Food Machinery Oils will effectively lubricate most food processing and packaging machinery. They are blended from exceptional quality, high viscosity index, paraffinic Food Grade White Mineral Oils that surpass the FDA requirements of 21 CFR 172.878 and 178.3620(a) and pass the USP requirements in the Lead Oxide Test. Finished products are in accordance with 21 CFR 178.3570 "Lubricants with incidental food contact. They are light colored, nonstaining and essentially odorless and tasteless. Mystik® FG/FM Food Machinery Oils are oxidation inhibited for enhanced stability and will provide functional performance superior to typical technical grade white oils used in the food industry.

Mystik® FG-2 Food Machinery Grease

Mystik® FG-2 effectively lubricates most machinery used to manufacture, process, package and store food products. The approximate temperature range of this NLGI No. 2 grease is 0 to 275°F. (-18 to +135°C.). Mystik® FG-2 is very resistant to water washout and is water insoluble. The texture is smooth, buttery, and stringy, and the grease has a neutral mild petroleum odor. The color is clear with a slight cloud and no pigments are used; therefore, the grease is nonstaining.

Mystik® HT-FG Supreme Food Machinery Greases

Mystik® HT-FG Supreme Food Machinery Greases are high temperature, polymer-fortified, food machinery greases with excellent EP (40 pound Timken OK Load) and antiwear performance. They are engineered specifically for food processing and packaging machinery, rust and oxidation inhibited, water insoluble and very resistant to water washout. They have superior high temperature performance and good adhesion/cohesion properties. The approximate temperature range of these greases is 10 to 325°F. They have a neutral mild petroleum odor and are nonstaining. Mystik® HT-FG Food Machinery Greases are the Supreme high temperature food machinery greases

TOOL OIL

Mystik® Rock Drill Oils

Mystik® Power Lubricants™ Rock Drill Oils provide excellent extreme pressure (EP) and anti-wear performance in heavy duty pneumatic tools. They may also be used as high quality industrial slideway lubricants (way oils) or non-drip oils.

MYS:ROCK-DRILL-P	ROCK DRILL OIL..5 GAL	\$ 61.49
------------------	-----------------------	----------

METAL WORKING FLUID

Mystik® Soluble Oil

The compounding enables the oil to be mixed with water into a stable, milk-white fluid. The water in the mixture provides excellent cooling of cutting tools because of water's superior natural ability to transfer heat. The oil provides lubrication to the cutting tool and also retards the hazards of corrosion possible because of the presence of water.

SPINDLE OIL

Shell SPINDLE Oils

Shell SPINDLE Oils are manufactured with carefully selected, premium quality base oils and a premium combination of high quality rust, corrosion and oxidation inhibitors. These oils also exhibit excellent water separation characteristics and extremely low foaming tendencies. Shell SPINDLE Oils are intended for use in the high speed spindle bearings found in some modern textile machines and other machine tools. These types of bearings may operate at extremely high rpms, and they are likely to require low viscosity oils to lubricate properly and to dissipate excessive heat that may be generated.

API SERVICE CATEGORIES

API Engine Service Categories Gasoline Engines

Category	Oil Description
SA*	Straight mineral oil (no additives)
SB*	Anti-oxidant, anti-scuff, but non-detergent
SC	Protection against high- and low-temperature deposits, wear, rust, corrosion; meets car makers warranty requirements for 1967 and earlier models
SD	Improved protection over SC oils, meets warranty requirements for 1970 and earlier models
SE	Improved protection over SD oils, meets warranty requirements for 1979 and earlier models
SF	Improved anti-wear and anti-oxidation; meets warranty requirements for 1988 and earlier models.
SG	Improved sludge control; meets warranty requirements for 1993 as well as earlier models.
SH	Improved deposit control, oil oxidation, wear, rust and corrosion; meets warranty requirements for most 1997 as well as earlier models.
SJ	Lower phosphorus to protect catalytic converters, lower volatility for some 1997 and all 1998 models
SL	Introduced July 1, 2001. SL oils are designed to provide better high temperature deposit control and lower oil consumption. Some of these oils may also meet the latest ILSAC specification and/or qualify as Energy Conserving.
SM	For all automotive engines currently in use. Introduced November 30, 2004. SM oils are designed to provide improved deposit protection, better wear protection, and better low temperature performance over the life of the oil. Some of these oils may also meet the latest ILSAC specification and/or qualify as Energy Conserving.

API Engine Service Categories Diesel Engines

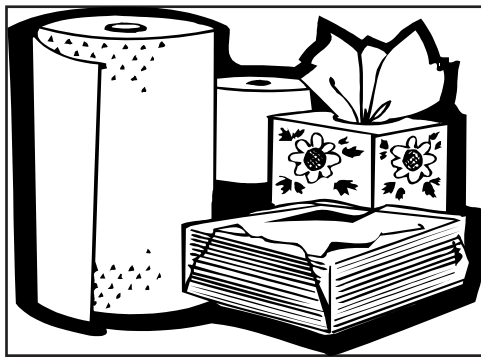

Category	Oil Description
CF	Severe duty; Turbocharged 4-cycle diesel engines; protection against high-temperature deposits, and corrosion.
CF-2	Severe duty 2-cycle diesel engines, meets Detroit Diesel 6V-92TA engine test requirements.
CF-4	Severe duty turbocharged 4-cycle diesel engines; highest protection against high- and low-temperature deposits, especially including late models (since 1988) lower emission engines: Mack(EO-K/2), Cummins NTC-400, and Caterpillar 1K.
CG-4	Severe duty turbocharged 4-cycle diesel engines; highest protection against high- and low-temperature deposits, for low emission engines since 1994; low sulfur fuel (less than 0.05% sulfur); Mack EO-L, Caterpillar 1N.
CH-4	Introduced 12/1/1998. For high-speed, four stroke engines designed to meet 1998 exhaust emission standards. CH-4 oils are specifically compounded for use with diesel fuels ranging in sulfur content up to 0.5% weight. Can be used in place of CD, CE, CF-4 and CG-4 oils.
CI-4	Introduced 9/5/02. For high-speed, four-stroke engines designed to meet 2004 exhaust emission standards implemented in 2002. CI-4 oils are formulated to sustain engine durability where exhaust gas recirculation (EGR) is used and are intended for use with diesel fuels ranging in sulfur content up to 0.5% weight. Can be used in place of CD, CE, CF-4, CG-4 and CH-4 oils.
CI-4 PLUS	Introduced 9/04. CI-4 PLUS is an update up CI-4. It is primarily for improving soot thickening performance in new low emission vehicles.
CJ-4	Introduced 10/06. For high-speed, four-stroke engines designed to meet 2007 on highway exhaust emission standards. CJ-4 oils are formulated to protect emission control systems, help comply with emission standards, reduce engine wear and control piston deposits and oil consumption. They are intended to maintain oil drain intervals when used with low sulfur diesel fuel

PENETRANTS

PB Blaster

This is the most cost effective, high performance product on the market today. It has a powerful, concentrated formula which uses capillary action to pull itself uphill into the most remote cracks and crevices. It frees rusted nuts and bolts by breaking the surface tension which hold them together. It also lubricates and protects.

3M:08672	BLACK HI TEMP SILICONE GASKET..3 OZ. TUBE	\$ 7.26

3M Super Silicone Sealant

This rapid curing adhesive/sealant is formulated to solve repair and maintenance problems. It is an excellent "form-in-place" gasket and adheres to a wide variety of automotive surfaces.

3M:08661	CLEAR SUPER SILICONE SEALANT..3 OZ. TUBE	\$ 8.13
3M:08663	CLEAR SUPER SILICONE SEALANT..1/10 GAL CARTRIDGE GUN	\$ 12.15
3M:08664	BLACK SUPER SILICONE SEALANT..1/10 GAL CARTRIDGE GUN	\$ 12.15

Permatex Super 300 Form-A-Gasket

This non-hardening sealant is designed to resist heat transfer fluids such as oil or antifreeze (-65F-425F).

PER:80057	SUPER 300 FORM A GASKET SEALANT..4 OZ BOTTLE	\$ 3.81
-----------	--	---------

Permatex Form-A-Gasket #1

This fast drying, hard setting sealant is designed for sealing rigid materials and flanges, or patching holes and joints where permanent assembly is desired (-65F-400F).

PER:80008	FORM-A GASKET NO. 1 SEALANT..3 OZ TUBE	\$ 3.12
-----------	--	---------

Permatex Form-A-Gasket #2

This slow drying, non-hardening sealant is designed for sealing cut gaskets and stamped parts. It allows for easy disassembly (-65F-400F).

PER:80009	FORM-A GASKET NO. 2 SEALANT..1.5 OZ TUBE	\$ 2.26
PER:80016	FORM-A GASKET NO. 2 SEALANT..3 OZ TUBE	\$ 2.95
PER:80011	FORM-A GASKET NO. 2 SEALANT..11 OZ TUBE	\$ 6.86

Permatex Aviation Form-A-Gasket

This slow drying, non-hardening, brush top sealant is approved for use in aviation as well as automotive applications (-65F-400F).

PER:80019	AVIATION FORM A GASKET NO. 3 SEALANT..4 OZ BOTTLE	\$ 3.74
PER:80017	AVIATION FORM A GASKET NO. 3 SEALANT..16 OZ BOTTLE	\$ 7.92

Permatex Anaerobic Gasket Maker 518

This non-corrosive gasketing material is designed primarily for aluminum, iron, and steel flanged mating surfaces. It fills a gap of .015". It allows for easy disassembly and cures to a solvent resist seal that will not tear or decay during service.

PER:51817	ANAEROBIC GASKET MAKER..6 ML TUBE	\$ 3.13
PER:51813	ANAEROBIC GASKET MAKER PRI..50 ML TUBE	\$ 10.63

Permatex Anaerobic Gasket Maker 515

This flexible gasketing material is for use on rigid machine flanges with less than .015" gap. It flexes with flanges that move in service and eliminates performed gaskets.

PER:51531	ANAEROBIC FLANGE SEALANT..50 ML TUBE	\$ 19.70
-----------	--------------------------------------	----------

Permatex Tack & Seal Gasket Sealant

This non-hardening gasket sealant holds large gaskets in place during positioning and assembly, while allowing for easy disassembly.

PER:80938	TACK AND SEAL GASKET SEALANT..1.25 OZ TUBE	\$ 3.16
-----------	--	---------

Permatex Ultra Rubber Gasket Sealant and Dressing

This non-hardening gasket sealant and dressing is formulated specially for rubber gaskets. It conditions gaskets for longer life and seals potential leak paths. Oil and fluid resistant. (-65F - 400F).

PER:85409	RUBBER GASKET SEALANT AND DRESSING..1 OZ TUBE	\$ 3.31
-----------	---	---------

Permatex High Tack Gasket Sealant

This fast drying sealant dries to a highly tacky, non-brittle film. It is a reliable general adhesive.

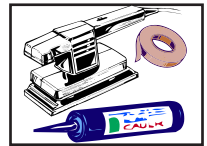

PER:80063	HIGH TACK GASKET SEALANT..16 OZ CAN	\$ 9.32
PER:80065	HIGH TACK SPRAY A GASKET SEALANT..12 OZ AEROSOL	\$ 8.43

Permatex Gasket Shellac

This hard setting, economical sealant seals all common gasketing materials in low temperature and low pressure applications.

PER:80021	INDIAN HEAD GASKET SHELLAC COMPOUND..2 OZ BOTTLE	\$ 1.14
-----------	--	---------

ADHESIVES & ABRASIVES

GASKET MAKERS & SEALANTS

Permatex Hylomar Flange Sealant

This exceptional high tack gel sealant is non-hardening and allows for easy disassembly of flanged components even after long term use.

PER:25249	GASKET DRESSING AND FLANGE SEALANT..1OZ TUBE	\$ 4.11
-----------	--	---------

GASKET REMOVERS

Permatex Aerosol Gasket Remover

This aerosol quickly removes even baked on gaskets and all types of gasketing adhesives and sealants. It also prepares the metal for new gasket.

PER:80646	GASKET REMOVER..16 OZ AEROSOL	\$ 9.90
-----------	-------------------------------	---------

Permatex Silicone Stripper Gel Gasket Remover

This OEM approved, patented gel easily removes silicone residue. Safe on plastic.

PER:80647	SILICONE STRIPPER GEL..2 OZ TUBE	\$ 21.41
-----------	----------------------------------	----------

3M Conditioning Discs

Used to quickly remove gaskets and gasketing material prior to assembly. They are ideal for cleaning light oxidation and removing gasketing residue.

3M:07453	2" CONDITIONING DISC COARSE..25 PER BAG	\$ 24.30

PER:24240	MEDIUM STRENGTH BLUE THREADLOCKER..36 ML TUBE	\$ 26.34

Permatex Blue Medium Strength Threadlocker

This threadlocker is especially well suited for fasteners between ¼ inch and 1 inch (6mm to 25mm) that have been coated with DRI-LOC adhesive. It is oil resistant and prevents loosening due to vibration.

PER:24300	SURFACE INSENSITIVE THREADLOCKER..10 ML BOTTLE	\$ 10.19
-----------	--	----------

Other Brands

PRI:24250	MEDIUM STRENGTH BLUE THREADLOCKER..50 ML TUBE	\$ 10.45
-----------	---	----------

Permatex Red Hi- Strength Threadlocker

This threadlocker is designed for heavy-duty applications. It is especially well suited for permanently locking studs and press fits. It adds 3000 PSI holding power, and replaces set screws and snap rings. It requires extra effort or a special tool for removal.

PER:27005	HIGH STRENGTH RED GEL THREADLOCKER..5 G TUBE	\$ 10.39
PER:27010	HIGH STRENGTH RED GEL THREADLOCKER..10 G TUBE	\$ 11.43
PER:27100	HIGH STRENGTH RED THREADLOCKER..6 ML TUBE	\$ 5.85
PER:27140	HIGH STRENGTH RED THREADLOCKER..36 ML TUBE	\$ 22.00

Other Brands

PRI:27150	HIGH STRENGTH RED THREADLOCKER..50 ML TUBE	\$ 10.99
-----------	--	----------

Permatex Red Hi-Temp/Hi- Strength Threadlocker

This threadlocker is designed for heavy-duty applications. It prevents nuts and bolts from loosening due to shock, severe vibration, or heat stress. It is removable with heat and hand tools.

PER:27200	HIGH TEMPERATURE RED THREADLOCKER..10 ML TUBE	\$ 9.01
PER:27240	HIGH TEMPERATURE RED THREADLOCKER..36 ML TUBE	\$ 28.43

Permatex Green Wicking Threadlocker

This threadlocker is designed to be used on pre-assembled parts. It's unique low viscosity formula wicks along the threads securing them in place. Localized heating and hand tools are required for removal.

PER:29000	PENETRATING GREEN THREADLOCKER..6 ML TUBE	\$ 5.44
PER:29040	PENETRATING GREEN THREADLOCKER..36 ML TUBE	\$ 22.14

Permatex Bearing Mounts For Relaxed Fits

This high strength, anaerobic adhesive secures slip fit assemblies. In 10 minutes, it provides 4000 PSI shear strength on steel. Replaces set screws, clamp rings, snap rings, wheel bearings, idler shafts, and press fit bearings.

PER:68040	BEARING MOUNT FOR RELAXED FIT..36 ML TUBE	\$ 26.75
-----------	---	----------

Permatex Sleeve Retainer

This high strength, anaerobic adhesive secures slip and press fit assemblies. It adds 3000 PSI of holding power. Special tools required for removal.

AIR COUPLERS

Ten different coupler/plug styles are in current industrial and automotive use. They were originally developed by different manufacturers. There is no advantage of one style over the other, although styles M, H, and G are the most popular.

The size defines the air handling capacity of the coupler. The 1/4" is the most popular size and handles 35SCFM. The 3/8" handles 60SCFM. For air volumes above this amount, use the 1/2" size.

USE THESE FULL-SIZE DRAWINGS TO IDENTIFY AN UNKNOWN PLUG STYLE

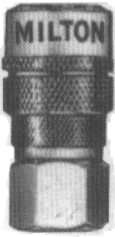

AIR HOSES AND FITTINGS

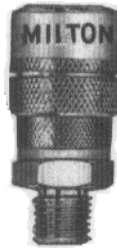

AIR COUPLERS

Milton M-Style Industrial Interchange Series 1/4" Basic Size

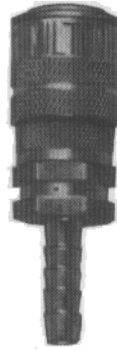

Milton M-style "kwik- change" couplers and plugs will interchange with all manufactures who comply with the dimensional requirements of military specification MIL-C-4109. M-style coupler bodies are brass with brass sleeves. M-style plugs are case hardened steel, plated to resist rust. Maximum inlet pressure : 300PSI. Maximum temperature : 250F. Air flow : 40 SCFM. Seals : Buna-N.

BLOW GUNS

Milton Blow Guns are indispensable for cleaning fuel and oil lines, air cleaners and car interiors, drying out wet ignition systems and spark plugs, blowing out dust dirt, filings, and metal chips. They have hundreds of other uses.

Milton Safety Blow Guns

Compact hand held unit can be used anywhere with compressed air. Streamlined comfort fit and full volume control. Many uses such as : cleaning fuel and oil lines, drying out wet ignition systems and spark plugs or blowing out dirt filings and metal chips. Maximum working pressure : 150PSI. Maximum nozzle pressure : 30PSI when dead ended. 11.4 SCFM @ 100PSI. 1/4NPT air inlet. Nozzle thread : 5/16-24. Zinc die cast body. OSHA compliant.

MIL:107	SAFETY BLOW GUN..1 EACH	\$ 6.40

107

AIR HOSES AND FITTINGS

BLOW GUNS

Milton Safety Blow Guns

Use anywhere with compressed air. Full flow control. Extra large hang up easy storage. Maximum inlet pressure : 150PSI. Maximum nozzle pressure : 30PSI when dead ended. 10.6 SCFM @ 100PSI. 1/4NPT air inlet. Nozzle thread : 1/8-27. Zinc die cast body. Steel plated handle. OSHA compliant.

MIL:S120	LEVER HOOK SAFETY BLOW GUN..1 EACH	\$ 9.33
----------	------------------------------------	---------

Four safety by-pass holes allow air to escape if tip is blocked. By-pass holes do not interfere with normal air flow. Special internal design permits a restricted maximum discharge of 30PSI. Discharge same air volume as full flow blo-guns while maintaining required noise level and nozzle pressure. #133 and #134 are bent to a special angle to clean out blind holes and offer convenient use on long reach applications. Maximum inlet pressure : 150PSI. 4.5 SCFM @ 100PSI. 1/4NPT air inlet. Nozzle thread : 1/2-27. Zinc alloy body. OSHA compliant.

MIL:133	SAFETY BLOW GUN WITH 10" EXTENSION..1 EACH	\$ 15.52
---------	--	----------

MIL:134	SAFETY BLOW GUN WITH 15" EXTENSION..1 EACH	\$ 17.36
---------	--	----------

Compact and versatile blo-gun comes with both a safety nozzle and a rubber tip nozzle. Hang up hook for easy storage. Maximum working pressure : 150PSI. 11.7 SCFM @ 100PSI safety tip. 12.9 SCFM @ 100PSI rubber tip. 1/4NPT air inlet. Nozzle thread : 1/2-27. Zinc alloy body. OSHA compliant with safety tip only.

MIL:S148	COMPACT SAFETY LEVER BLOW GUN..1 EACH	\$ 7.65
----------	---------------------------------------	---------

Full flow safety lever blo-gun. Maximum working pressure : 150PSI. 10.0 SCFM @ 100PSI. 1/4NPT air inlet. Nozzle thread : 7/16-27. Body outlet thread size : 1/2-27. OSHA compliant.

MIL:S150	SAFETY LEVER BLOW GUN..1 EACH	\$ 3.36
----------	-------------------------------	---------

OSHA approved multi-function blo-gun comes with both a safety nozzle and a rubber tip nozzle. Extension is bent to access hard to reach places such as : motors, machinery, transmissions, combines and hidden areas. Maximum working pressure : 150PSI. 10.5 SCFM @ 100PSI safety nozzle. 11.6 SCFM @ 100PSI rubber tip nozzle. 1/4NPT air inlet. OSHA compliant with safety tip only.

MIL:158	BLOW GUN WITH 2' EXTENSION..1 EACH	\$ 18.99
---------	------------------------------------	----------

Milton Precision Lubricators

Ideal for customers who want trouble free protection and tamper proof reliability. Drop style allows precise setting and then removal of adjustment knob. Perfect for lubricating air motors, tools, valves or where low air pressure is encountered or where extremely fine adjustments are necessary. Sight glass on drop type allows observation for instant drip rate adjustment. Tamper proof. Lubricator may be filled without shutting down line pressure. Oil supply tube check valve guarantees INSTANT START UP LUBRICATION. Low pressure drop at full air flow. Oil delivered at an air pressure as low as 2 SCFM. Safety bowl guard or metal bowl. All lubricators are drop type. Bowl capacity : 5oz. Maximum pressure : 150PSI. Temperature range : 40 to 125F. Polycarbonate bowls with metal bowl guards.

Milton In-Line Lubricator

To lubricate pneumatic tools for full protection by accurately metering correct amount of oil. 1/2oz capacity.

MIL:S639	IN LINE LUBRICATOR 1/4 NPT FEMALE THREADS X 1/4 NPT MALE THREADS..1 EACH	\$ 2.68
----------	--	---------

Milton Piggyback Mini Filter/Regulator Duo

Ideal for use in compact air flow applications. Filter/regulator duo has same features as mini regulator plus the space saving convenience of a 20 micron screw in filter. Comes preassembled with 0-160PSI gauge. Height 6 1/4". Maximum SCFM : 20. Relieving type. Maximum pressure : 150PSI. Temperature range : 40 to 120F. Adjust 0 - 125PSI.

National-Spencer Chemical Pumps

Constructed of polypropylene with a nickle plated steel rod and Viton seals, These pumps can be used with mild acids, antifreeze, detergents and windshield washer solvents. Complete with bung adapter.

N/S:360	15-55 GAL CONTAINER LIFT STYLE CHEMICAL PUMP..1 EACH	\$ 36.14
N/S:360-CN	REPLACEMENT COUPLING NUT..1 EACH	\$ 1.39
N/S:360-SPT	REPLACEMENT SPOUT..1 EACH	\$ 1.56

Constructed of nylon with a nickle plated steel rod and Viton seals, These pumps can be used with mild acids, antifreeze, detergents and windshield washer solvents. Complete with bung adapter.

N/S:363	15-55 GAL CONTAINER LIFT STYLE CHEMICAL PUMP..1 EACH	\$ 43.32
---------	--	----------

Constructed of nylon with a stainless steel rod and teflon seals, These pumps can be used with mild acids, antifreeze, detergents, MEK, acetone, lacquer thinner and windshield washer solvents. Complete with bung adapter.

N/S:365	15-55 GAL CONTAINER LIFT STYLE CHEMICAL PUMP..1 EACH	\$ 50.77
---------	--	----------

These siphon pumps siphon lower and pump higher. 1" inlet and outlet. These pumps can be used with mild acids, antifreeze, detergents, MEK, acetone, lacquer thinner, gasoline and windshield washer solvents. Complete with bung adapter.

N/S:369	55 GAL CONTAINER SIPHON CHEMICAL PUMP..1 EACH	\$ 28.00
---------	---	----------

This yellow, light weight, corrosion resistant lever style pump is designed to pump water based fluids, acids, and alkali solutions. It is constructed of polypropylen, has viton and polypropylene seals, and a stainless steel rod. It comes with a telescoping suction tube and an adjustable bung adapter which fits 1.25" or 2" openings. 12oz. per stroke

N/S:375	15-55 GAL CONTAINER LEVER STYLE CHEMICAL PUMP..1 EACH	\$ 46.15
---------	---	----------

This black, light weight, corrosion resistant lever style pump is designed to pump stronger acids, alkali solutions, and Nitric acid. It is constructed of Ryton, has viton and polypropylene seals, and a stainless steel rod. It comes with a telescoping suction tube and an adjustable bung adapter which fits 1.25" or 2" openings. 12oz. per stroke

N/S:376	15-55 GAL CONTAINER LEVER STYLE CHEMICAL PUMP..1 EACH	\$ 64.61
---------	---	----------

Rotary pump. Lightweight and corrosion resistant. Constructed of polypropylene with teflon seals. Dispenses 8oz. per revolution. These pumps can be used with antifreeze, light oils (up to 30wt.), Methanol, chlorinated solvents and windshield washer solvents. Complete with bung adapter. Applications : agricultural, automotive, and industrial

National-Spencer Air Operated Grease Guns

50:1 ratio stationary style pneumatic grease pump system for 25 to 50lb. containers Features includes : control handle (#1536A), air filter (#1559A) with automatic drain, drum cover (#65310), follower plate (#107016), "z" swivel (#1545), durable chrome finish, no oiler needed, 6' high pressure grease hose, 1/4" x 48" air hose, air needle valve and male and female air quick connects. Tube length : 16". Pump tube diameter : 1 3/16". Recommended for grease through NLGI #2. Application : automotive, agricultural and industrial. #3574R-12 comes with a 12' high pressure grease hose.

N/S:3574R	AIR OPERATED 35 LB CONTAINER GREASE PUMP WITH 6' HOSE..1 EACH	\$ 741.23
-----------	---	-----------

N/S:3574R-12	AIR OPERATED 35 LB CONTAINER GREASE PUMP WITH 12' HOSE..1 EACH	\$ 780.34
--------------	--	-----------

60:1 ratio portable style pneumatic grease pump system for 120lb. containers Features includes : control handle (#1536A), air filter (#1559A) with automatic drain, drum cover (#65385), follower plate (#1524), drum dolly (#120-S), "z" swivel (#1545), 1/4" x 6' high pressure grease hose, 1/4" x 48" air hose, air needle valve and male and female air quick connects. Free flow rate : 66oz. per minute. No seals in suction tube eliminates excessive wear. Tube length : 29.13". Pump tube diameter : 1.18". Pump head diameter : 3.15". Pump head length : 13".

Recommended for grease through NLGI #3. Application : dispensing grease short or long distances, suitable for centralized dispensing systems and highly recommended for specific needs requiring a higher quantity of grease and higher pressure. #1213RAR is only the pump.

N/S:1213R	120 LB CONTAINER AIR OPERATED COMPLETE GREASE PUMP..1 EACH	\$ 907.68

--------------	--	------------

N/S:1213R-16	120 LB CONTAINER AIR OPERATED COMPLETE GREASE PUMP..1 EACH	\$ 926.72
--------------	--	-----------

60:1 ratio pneumatic grease pump system for 400lb. open head drums. Features includes : durable chrome finish, air filter with automatic drain, powder coated drum cover, follower plate with rubber wiper, dual o-ring seals for pump shaft (#66590), air needle valve and male and female air quick connects. Air motor with silicone lube eliminates need for oiler. Double acting for continuous flow. Free flow rate : 66oz. per minute with self loading grease and 90PSI of air. Recommended for most greases including NLGI #3. Application : shop use for dispensing grease to a hose reel or dispensing through a high pressure hose using a control handle.

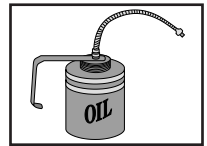

Recommended optional accessories : hose reel (#1457), booster control handle (#1536A), booster "z" swivel (#1545), continuous flow control handle (#1534), continuous "z" swivel (#1547) and drum dolly (#140-s)

National-Spencer Waste Oil Drain

17 gallon waste oil drain. Adjustable height : minimum 49 1/2" / maximum 69". Mounted on front and rear ball bearing wheels (3" front casters, 6" rear casters). Central mounted bowl on swivel joint for positioning. Tank hold 13 3/4 gallons and collection bowl holds 3 1/2 gallons. 22 1/2" oversized funnel. 6 1/2" drain hose. 7PSI maximum draining air pressure. Level sight glass, scale in liters and gallons. Anti-splash screen/filter useful for draining oil filters. Attachable tool tray (6" x 8" x 2"). Used for gravity drain of fluids from engines, gear boxes or differentials of all motor vehicles placed on an auto lift or over a pit. Procedure for self evacuation : (1) close all valves and raise funnel until it clicks (2) apply air to tank (3) once pressurized roll tank to discharge location (4) place drain tube in waste oil container (5) open valve at opposite end of drain tube.

N/S:1235	17 GAL TELESCOPIC WASTE OIL DRAIN..1 EACH	\$ 484.77
----------	---	-----------

17 gallon truck oil drain. Used for draining oil and antifreeze from heavy-duty trucks and Rvs where a lift drain is not suitable. It has an 8" high x 25" wide x 46" long translucent body that fluid levels are easily viewed through. Used oil is transferred via a 115V, 4 GPM pump. It comes with 2 rear stationary wheels for stability, 2 large swivel casters, and a 6' hose.

FUSES

Littelfuse Bolt-On Fuses

These fuses are used in vehicles for high current applications where tighter bolt-down connections substantially reduces or eliminates heat. The PAL fuse is an alternative to the MAXI fuse in current ratings up to 120amperes. It is commonly found on Japanese vehicles.

ABSORBENTS

Clay Absorbents

This granular absorbent soaks up all traces of oil and grease, reducing injuries. It will help provide traction while absorbing spills.

DRY:OIL-DRY	OIL ABSORBENT..40 LB	\$ 8.44
The super concentrated formula uses only 1/3 as much as regular oil dry to clean up the same amount of liquid.		
DRY:05000	CONCENTRATED ABSORBENT..20 LB	\$ 13.34
DRY:05025	QUICK SORB..25 LB	\$ 8.46

Nature's Broom Oil Absorbent

Nature's Broom is a **REVOLUTIONARY** absorbent technology that starts to soak up spills as soon as it touches the liquid. Independent tests have shown Nature's Broom to be over 4 1/2 times more absorbent than clay, which results in a smaller amount of Nature's Broom needed to clean up spills! Nature's Broom is lighter and less dense, which means you will get more product to use from a 40 lb. bag of Nature's Broom than you would from a 40 lb. bag of clay.

DRY:100-4	4LB BAG NATURE'S BROOM..1BAG	\$ 5.95
DRY:101-40	40LB BAG NATURE'S BROOM..1BAG	\$ 10.95

Berryman Green Stuff Absorbent

This absorbent quickly soaks up 15 times its own weight. It also will not leach. Its compact size makes it ideal for service trucks and emergency vehicles.

BER:7800	GREEN STUFF ABSORBENT..1LB	\$ 8.10
----------	----------------------------	---------

Absorbent Pads, Rugs, And Socks

These durable pads quickly absorb non-aggressive spills in high traffic areas. Dimples build in strength and allow fluid to spread through the material quicker for your best absorption

DRY:OIL-PAD-GRAY	15"X19" GRAY UNIVERSAL PADS..100 PER BUNDLE	\$ 55.08
DRY:OIL-PAD-GREEN	GREEN UNIVERSAL PADS..100 PER BUNDLE	\$ 49.95
DRY:GPB200S	15"X19" GRAY UNIVERSAL BONDED ABSORBENT PAD..200 PER BUNDLE	\$ 68.17

This rug is designed to help prevent messes before they happen. The poly backing prevents spilled liquids for leaking through and reduces rug movement.

DRY:OIL-RUG	36" X 100' POLY BACKED RUG..PBR-100	\$ 225.00
DRY:NPR150H	36"X150' BLACK UNIVERSAL INDUSTRIAL RUG	\$ 199.21

These socks are designed to keep work areas safe and clean. When put around the base of a leaking machine, they stop non-aggressive fluids from spreading across the floor

DRY:OIL-SOCK	3" X 4' ABSORBENT SOCK..30 PER CASE	\$ 71.56
--------------	-------------------------------------	----------

These high absorbency rolls can be crumpled, stuffed or wrapped around any problem leak area. They are durable enough for everyday use. The roll is perforated into 19" x 17" squares...so you only use what you need!!

DRY:GRA150H	30"X 150' HEAVY WEIGHT UNIVERSAL ROLL	\$ 92.57
DRY:GNRF150H	30"X150' GREEN HEAVY WEIGHT UNIVERSAL ABSORBENT ROLL	\$ 131.76
DRY:GRB144M	38" X 144' MEDIUM WEIGHT UNIVERSAL ROLL	\$ 99.00
DRY:GRF150H	38" X 144' MEDIUM WEIGHT UNIVERSAL ROLL	\$ 113.25

Oil drum drip pans are designed to keep your work area clean and safe by taking care of the annoying run-off many spouts allow.

DRY:DRIP-PAN	UNIVERSAL DRIP PAN..12 PER CASE	\$ 88.45
--------------	---------------------------------	----------

Oil Only Absorbents

These pads are a good replacement for clay absorbents where petroleum products are the primary problem and dust is a factor.

DRY:OIL-PAD-WHITE	15"X19" WHITE OIL ONLY PADS..100 PER BUNDLE	\$ 51.40
DRY:WPB200S	15"X19" BONDED WHITE OIL ONLY PADS..200 PER BUNDLE	\$ 46.59

This is the way to go if you are on a tight budget. This roll is ideal in low traffic areas, under leaky hoses, and around leaky equipment.

DRY:OIL-ROLL	38"X144' WHITE OIL ONLY HEAVY WEIGHT ROLL	\$ 97.09
--------------	---	----------

These products are excellent for skimming oil off water. They are ideal for boats, bilge areas, machine sump, and drainage areas.

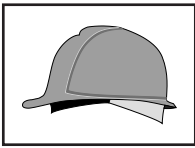

DRY:OIL-BOOM	5" X 10' OIL ABSORBENT BOOM..4 PER BUNDLE	\$ 103.49
DRY:90858	18"X24" ABSORBENT PILLOWS..10 PER CASE	\$ 67.65

Oil drum drip pans and drum top pads are designed to keep work areas clean by taking care of annoying run on from pumps and spouts.

DRY:ODP24	OIL DRIP PAN..12 PER CASE	\$ 93.63
DRY:L90612	ABSORBENT PILLOWS WITH PANS..24 PILLOWS / 12 PANS	\$ 71.78
DRY:DRUM-PAD	DRUM TOP ABSORBENT PAD..25 PER BOX	\$ 70.22

Other Brands

TAP:ANTI SKID	1/2" ANTI SKID SAFETY TAPE	\$ 115.50
---------------	----------------------------	-----------

Oily Waste Cans

Oily waste cans are essential whenever solvent clothes and wiping rags are used. The can remains closed when not in use. When operated by hand or foot, the pail opens and closes automatically when released. Its round shape and raised bottom increase air flow around the cans and greatly reduce the risk of combustion.

G/C:9-100	6 GAL OILY WASTE CAN..1 EACH	\$ 73.98
G/C:9-300	10 GAL OILY WASTE CAN..1 EACH	\$ 87.28

COMPRESSION TESTERS

Milton Engine Compression Tester And Accessories

Double fiber braided neoprene hydraulic hose. Includes 14 mm long range adapter and square valve core. Composite metric scale reads both PSI and all metric ranges. 0-300 PSI -- 0-21 kg/cm2. 0-2100 kPa -- 0-21 bars

MIL:S1251	DELUXE COMPRESSION TESTER..1 EACH	\$ 6.84
MIL:1251-2	REPLACEMENT VALVE CORE FOR S1251..1 EACH	\$ 1.15

Milton Diesel Engine Compression Tester And Accessories

Measures cylinder pressure on diesel equipped cars and trucks. "Kwik-Change" coupler permits fast threading in to hard to reach openings. The release valve allows for instant venting and resets the gauge for repeat checks. High pressure, hydraulic wire reinforced flexible hose. Composite metric scale reads both PSI and all metric ranges. 0-1000 PSI -- 0-70 kg/cm2. 0-7000 kPa -- 0-70 bars.

MIL:1255	DIESEL COMPRESSION TESTER..1 EACH	\$ 70.53

BALDWIN FILTERS

Baldwin is a true filter manufacturer. The competition assembles filter parts. Baldwin produces one of the highest percentages of their own filter parts in the industry. Producing their own parts, using the best raw materials, and many exclusive innovations make Baldwin the premier heavy duty filter. To follow is a list of Baldwin's "A" movers. For a complete Baldwin price sheet, ask your sales representative.

AUTOMOTIVE PARTS

GATES PRODUCTS

Gates Safety Strip Heater Hose

These premium hoses are designed for long service life. They resist deterioration from most coolants, non-oil based coolant additives, high temperatures, and high pressure. Temperature Rating 40F - 257F

GAT:28409	SAFETY STRIPE HEATER HOSE..3/8" X 50'	\$ 32.70
GAT:28410	SAFETY STRIPE HEATER HOSE..1/2" X 50'	\$ 37.35
GAT:28411	SAFETY STRIPE HEATER HOSE..5/8" X 50'	\$ 41.52
GAT:28412	SAFETY STRIPE HEATER HOSE..3/4" X 50'	\$ 54.22
GAT:28413	SAFETY STRIPE HEATER HOSE..1" X 50'	\$ 73.80

Gates Charter Heater Hose

These economical hoses are designed for reliability. They resist deterioration from most coolants, non-oil based coolant additives, high temperatures, and high pressure. Temperature Rating 40F - 257F

GAT:28407	CHARTER HEATER HOSE..1/4" X 50'	\$ 19.89
GAT:28400	CHARTER HEATER HOSE..1/2" X 50'	\$ 30.60
GAT:28401	CHARTER HEATER HOSE..5/8" X 50'	\$ 30.50
GAT:28402	CHARTER HEATER HOSE..3/4" X 50'	\$ 37.06

Gates Safety Stripe 2 Fuel Line/PCV/Evaporative Emission Control Hose

These reinforced multi-purpose hoses can be used as fuel lines, PCV and EEC systems, and for fuel return hose connections on diesel fuel injection systems. They are approved for use with leaded and unleaded gasoline, diesel and gasoline blends of ethanol, methanol, and ether. DO NOT use for pressure line on fuel injected engines (use MPI/Fuel Injection Hose) or for coolant applications.

GAT:27000	FUEL LINE/PVC/EMISSION HOSE..1/8" X 25'	\$ 22.25
GAT:27001	FUEL LINE/PVC/EMISSION HOSE..3/16" X 25'	\$ 22.68
GAT:27002	FUEL LINE/PVC/EMISSION HOSE..1/4" X 25'	\$ 20.07
GAT:27003	FUEL LINE/PVC/EMISSION HOSE..5/16" X 25'	\$ 20.30
GAT:27004	FUEL LINE/PVC/EMISSION HOSE..3/8" X 25'	\$ 31.08
GAT:27005	FUEL LINE/PVC/EMISSION HOSE..7/16" X 25'	\$ 22.25
GAT:27006	FUEL LINE/PVC/EMISSION HOSE..1/2" X 25'	\$ 45.04
GAT:27045	WINDSHIELD WASH/VACUUM TUBING..3/32" X 50'	\$ 11.28
GAT:27041	WINDSHIELD WASH/VACUUM TUBING..7/64" X 50'	\$ 12.08
GAT:27042	WINDSHIELD WASH/VACUUM TUBING..5/32" X 50'	\$ 17.05
GAT:27043	WINDSHIELD WASH/VACUUM TUBING..7/32" X 50'	\$ 18.70
GAT:27044	WINDSHIELD WASH/VACUUM TUBING..1/4" X 50'	\$ 20.60
GAT:27050	WINDSHIELD WASH/VACUUM TUBING..5/16" X 25'	\$ 13.60

Gates Transmission Cooler Line

This hose provides a safe heat and oil resistant connecting line between the oil cooler and the transmission. It has one fiber braid reinforcement over an oil resistant nitrile rubber tube. It has an oil and abrasion resistant Hypalon cover. Meets or exceeds SAE J1019 requirements. Temperature Range - +300F.

GAT:27058	TRANSMISSION OIL COOLER HOSE..5/16" X 25'	\$ 51.48
GAT:27059	TRANSMISSION OIL COOLER HOSE..3/8" X 25'	\$ 58.31
GAT:27067	TRANSMISSION OIL COOLER HOSE..1/2" X 50'	\$ 128.52

Gates MPI/Fuel Injection Hose

This hose is recommended for all clamped hose applications on fuel systems, including fuel injection engines. It is NOT designed to replace coupled hose assemblies on fuel injection systems. It is approved for leaded and unleaded gasoline, diesel and gasoline blends of ethanol, methanol, and ethers, and 100% methanol or ethanol. It has Hypalon tubes to combat heat, and reinforced braid Polyester to increase strength. Temperature Range - +300F.

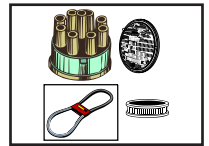

GAT:27082	FUEL INJECTION HOSE..1/4" X 10'	\$ 43.50
GAT:27085	FUEL INJECTOR HOSE..5/16" X 10'	\$ 50.92
GAT:27095	FUEL INJECTOR HOSE..5/16" X 25'	\$ 105.75
GAT:27096	FUEL INJECTION HOSE..3/8" X 25'	\$ 119.48

Gates Multi-Purpose Hose

This hose is designed for handling low pressure air, water, agricultural spraying, oil or grease. It has Nitrile tube and cover to resist oil. Temperature Range 0F - 212F

GAT:27410	MULTI-USE HOSE..1/2" X 50'	\$ 128.69
GAT:27414	MULTI-USE HOSE..5/8" X 50'	\$ 132.63
GAT:27418	MULTI-USE HOSE..3/4" X 50'	\$ 160.48

AUTOMOTIVE PARTS

GATES PRODUCTS

Gates Fuel Fill Hose

This hose is designed for transferring fuel from vehicle's filler neck to fuel tank. It works on passenger cars, light trucks, and recreational vehicles. It is for use with most types of fuel. It is especially resistant to gasoline and diesel fuel. Temperature Range - +250F.

GAT:23924	FUEL FILL HOSE..1 EACH	\$ 43.84
GAT:23932	FUEL FILL HOSE..1 EACH	\$ 48.05
GAT:23964	FUEL FILL HOSE..1 EACH	\$ 27.49
GAT:23972	FUEL FILL HOSE..1 EACH	\$ 37.47

Gates XL V-Belts

These belts are replacement belts for today's most demanding engine drives. Their exclusive silencer variable notch design breaks up harmonics, so the XL belt runs quieter. Their fiber loaded rubber stock puts more flexibility along the length of the belt, yet gives you greater lateral stability in the pulley. Thermal active tensional cords provide maintenance free performance when properly installed and tensioned. The Aramid fiber notches are self lubricating allowing the belt to enter and exit the pulley quicker, smoother, and quieter than traditional v-belts. These belts automatically adjust for tension loss through age and wear. Parker Brothers is proud to provide the complete line of Gates XL V-Belts. To follow is a list of the top 13 Gates XL V-Belts.

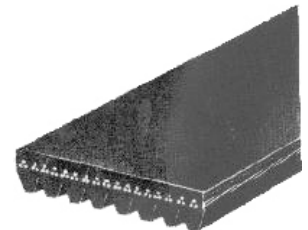

GAT:7345	AUTOMOTIVE XL V-BELT..1 EACH	\$ 8.80

Gates Micro V-Belts

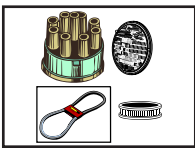

These belts are for replacing original belts on serpentine drives and other V-ribbed belt applications. They are designed for small diameter pulleys, backside idlers, and for use with or without automatic tensioners. They have application specific belt construction which eliminates belt noise, reduces tension loss, and solves problem drive applications. Special tensile members and fibre loaded reinforcement of ribs give these belts extra resistance to wear and cracking. Parker Brothers is proud to provide the complete line of Gates Micro V-Belts. To follow is a list of the top 12 Gates Micro V-Belts

GAT:K030300	AUTOMOTIVE MICRO V BELT..1 EACH	\$ 7.96

**STATE OF GEORGIA
DEPARTMENT OF REVENUE
SALES AND USE TAX CERTIFICATE OF EXEMPTION
GEORGIA PURCHASER OR DEALER
EFFECTIVE JULY 1, 2000**

To: _____
(SUPPLIER)

(DATE)

(ADDRESS)

THE UNDERSIGNED HEREBY CERTIFIES that all tangible personal property purchased or leased after this date will be for the purpose indicated below, unless otherwise specified on a particular order, and that this certificate shall remain in effect until revoked in writing. Any tangible personal property obtained under this certificate of exemption is subject to the sales and use tax if it is used or consumed by the purchaser

in any manner other than indicated on this certificate.

(Check proper box.)

1. Resale, rental or leased only, including but not limited to the purchase for resale of gasoline and other motor fuels.

2. Materials for further processing, manufacture or conversion into articles of tangible personal property for resale which will become a component part of the property for sale, or be coated upon or impregnated into the product at any stage of its processing, manufacture or conversion and nonreturnable materials used for packaging tangible personal property for shipment or sale. Containers or other packaging materials purchased for reuse are not exempt.

3. Machinery used directly in the manufacture of tangible personal property for sale purchased as additional, replacement or upgrade machinery to be placed into an existing plant in this State.

4. Direct Pay Permit authorized under Regulation 560-12-1-.16. The holder of a Direct Pay Permit must pay the 3% Second Motor Fuel Tax to suppliers on purchases of gasoline.

5. For use by Federal Government, State Government, any county, municipality or public school system of this State, when supported by official purchase orders or for use by Hospital Authorities created by Article 4, Chapter 7, of Title 7, and County or City Housing Authorities created by Article 1, Chapter 3 of Title 8. The State of Georgia, counties, municipalities, public schools, Hospital and Housing Authorities of Georgia must pay the 3% Second Motor Fuel Tax to suppliers.

A Georgia Sales and Use Tax Certificate of Registration Number is not required for this exemption.

6. Aircraft, watercraft, motor vehicles and other transportation equipment manufactured or assembled, sold and delivered by the manufacturer or assembler for use exclusively outside this State, or delivery of the crafts is for the sole purpose of removing same under its own power when it does not lend itself more reasonably to removal by other means.

A Georgia Sales and Use Tax Certificate of Registration Number is not required for this exemption.

7. Aircraft, watercraft, railroad locomotives and rolling stock, motor vehicles and major components of each, which will be used principally to cross the borders of this State in the service of transporting passengers or cargo by common carriers and by carriers who hold common carrier and contract carrier authority in interstate or foreign commerce under authority granted by the United States government. Replacement parts installed by carriers in such craft or vehicles which become an integral part of the craft or vehicle are likewise exempt. Private and contract carriers are not exempt.

(TYPE OF BUSINESS ENGAGED IN BY THE PURCHASER)

(COMMODITY CODE)

I declare, under penalties of false swearing, that this certificate has been examined by me and to the best of my knowledge and belief is true and correct, made in good faith, pursuant to the sales and use tax laws of the State of Georgia.

(PURCHASER'S FIRM NAME)

(CERTIFICATE OF REGISTRATION NO.)

(ADDRESS)

By _____

(SIGNATURE)

Title _____

(OWNER, PARTNER, OFFICIAL)

A supplier is required to have only one certificate of exemption form on file from each purchaser buying tax exempt. The supplier must exercise ordinary care to determine that the tangible personal property obtained under this certificate is for the purpose indicated. Suppliers failing to exercise such care will be held liable for the sales tax due on such purchases. For example, a supplier cannot accept a Certificate of Registration number bearing a "214" prefix since these are issued to a Contractor which has been deemed to be the consumer and is required to pay the tax at the time of purchase.

PARKER, BROTHERS, INC.

Oils / Lubricants / Service Station / Automotive
Commercial / Industrial / Manufacturing Supplies
4450 West Panola Road
Ellenwood, Georgia 30294-2799

Order Desk (770) 474-1286

Fax (770) 474-2750

TERMS

All new accounts C.O.D. until a credit application has been filled out and approved by our Credit Manager. All approved credit applications are net 10 days (*) and are payable from invoice date. No statement will be mailed. A Service Finance Charge of 2% will be added to invoices outstanding at closing of our books at the end of the month following month of purchase.

(*) This applies to accounts with approved Credit Applications on file and valid account numbers. Credit Applications are available from our salesmen. For Sales Exemption, we must have a state Sales Tax Exemption Certificate on file.

Lease and Finance Plans on equipment are available contact us.

QUANTITY DISCOUNTS

Oils and anti-freeze are discounted by quantity ordered. See our quantity discount schedule for details. Our sales personnel will be happy to assist you when ordering and explain combining of some items to obtain further discounts. Some manufacturers offer extra discounts on direct truckload shipments.

RETURN POLICY

A 20% re-stocking charge on all returns of new unopened merchandise. Returns must have prior approval. Original sales invoice number and date should accompany all requests. We reserve the right to refuse any returns of merchandise due to age, obsolescence, or unsalable condition. (No returns on special ordered merchandise are accepted.) Not to exceed 2% of previous year's purchase.

DAMAGED, LOST OR SHORT SHIPMENTS

WAREHOUSE PICK-UP ORDER AND OUR DELIVERY TRUCKS

All delivery receipts should be checked against merchandise received prior to signing of tickets. Note any discrepancies on delivery receipt.

UNITED PARCEL SERVICE SHIPMENTS

If UPS shipments are not received in good order, report damage to local UPS office immediately giving full particulars.

FREIGHT SHIPMENTS BY RAIL OR TRUCK

The items in shipments were packed in accordance with the rules and packing specifications set forth in the Railroad and National Consolidated Freight Classifications, and have been receipted for the original carrier in good condition.

If shipment is not delivered to you in good order and in accordance with quantity shown on Bill of Lading, have the shortage or damage noted by the delivering carrier's Freight Agent on both receipts and expense bill. If you accept shipment from Transportation Companies, short of what is enumerated on the Bill of Lading or damaged, without having proper notation by the delivering carriers agent, you do so at your own risk.

If boxes or crates are in apparent good condition, but upon opening contents are found to be damaged, call delivering carrier's Freight Agent or adjust to view same and have him make a bad order report on the freight bill relative to such concealed damage. Claims for Loss or Damage on shipment must not be deducted from our invoice, nor payment of the invoice withheld awaiting adjustments of such claims, as we do not guarantee safe delivery. We will not accept return of any materials unless permission to do so has been given by us in writing.

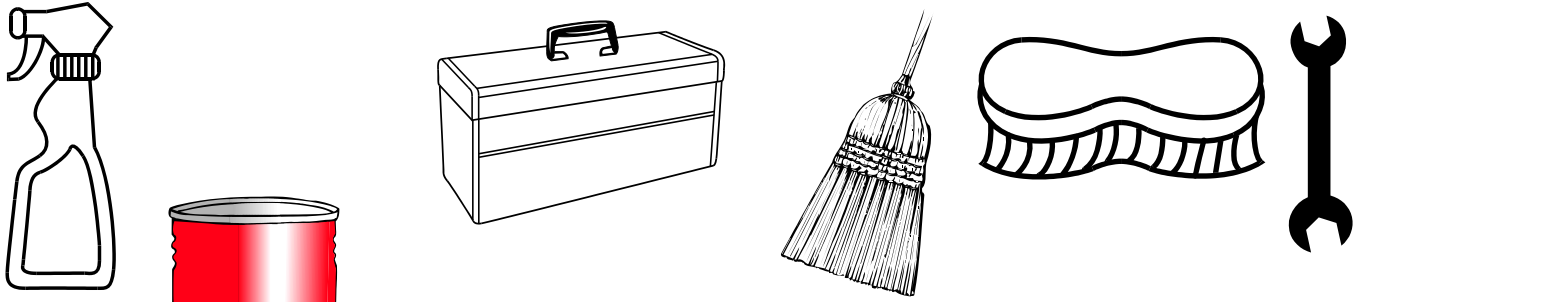

WARRANTIES AND ADJUSTMENTS

Parker Brothers, Inc. does not warrant merchandise. Any warranties on the products sold by Parker Brothers, Inc. are those made by the manufacturers. Parker Brothers, Inc. is not responsible for transportation from the customer to the Warranty Repair Store. Parker Brothers, Inc. hereby disclaims all warranties, either express or implied, including any implied warranties of merchantability of fitness for a particular purpose. Parker Brothers, Inc. neither assumes nor authorizes any person to assume for it any liability in connection with the sale of said products. We will, however do everything we can to assist you, our customer, in obtaining proper credit on defective items and will pass on full whatever credit is granted by the manufacturer on such items.

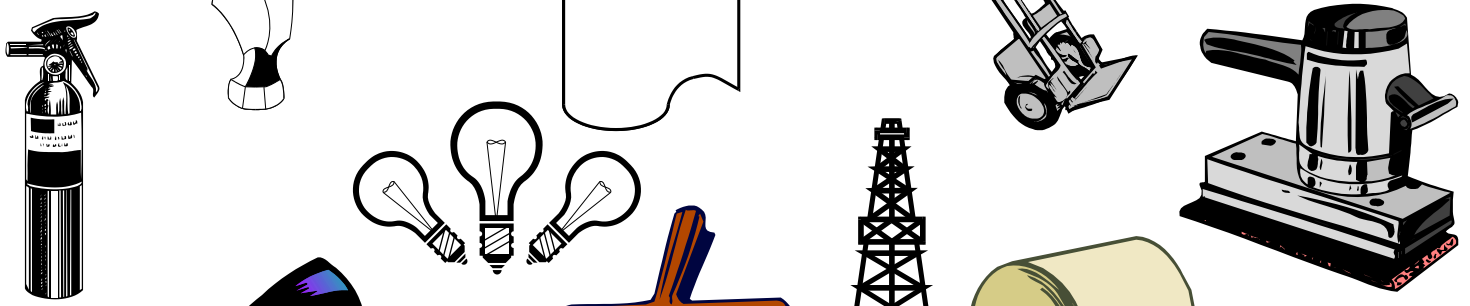

Prices are subject to change without notice.

THIS CATALOG IS A BUYER'S GUIDE AND SHOULD NOT BE USED AS AN APPLICATION CHART.
